## Resinol

surely did knock out that eczema

Three days ago, my arm was simply covered with red, itching eruption and I thought I was up against it for fair. But Joe had a jar of Resinol in his kit. I used a little and the itching stopped right off. In the morning most of the redness was gone and a few more applications finished it up.

Resinol is also a valuable healing dressing for chafes, cuts, and sore places generally. Sold by all druggists.

#### CALLS IT UNCONSTITUTIONAL.

To Tax Salaries of State Officials and Interest on Bonds.

Washington, D. C., Oct. 10.—Taxation of salaries of state officials and of incomes derived from interest on state and municipal bonds, as provided in the House draft of the new \$8,000,000,000 revenue bill was attacked as unconstitutional today by Senator Kellogg of Minnesota, Republican. The war powers of Congress do not extend so far as to suspend constitutional limitations, Senator Kellogg said, taking issue with Senator Knox of Pennsylvania, who in a recent speech upheld the right of the federal government to tax state instrumentalities.

"I do not believe that the necessities of the war justify the government laying its hands upon the sovereignty of the states," said Kellogg. "The continuance of our dual form of government, the stability, independence and effectiveness of our state and municipal governments are of the greatest importance to the peace and happiness of the nation and the perpetuity of our institutions."

"I do not believe there is any such emergency in the federal government to require this doubtful and dangerous experiment. From the statements of the secretary of the treasury, but small revenue will be received. The tax is not imposed on the incomes of bonds heretofore issued, but only upon the income from bonds hereafter to be issued."

In time of war, when of necessity all powers of the federal government are marshalled, let us not, under the guise of war, undertake to change the fundamental principles under which the states and federal governments maintain their separate existence."

The inhibition of the federal constitution does not arise from any expressed limitation, Senator Kellogg said, but the

## Extensive Autumn Showing of Coats

Upon American workmen and American manufacturers has fallen the tremendous task of replacing hundreds of essential products we depend on for modern comforts, which, until the war, came in a large measure from abroad, and they have valiantly fulfilled their duty.

A great many things we are offering this fall have been made in America. They have been made under exacting specifications, under hardships of curtailed labor and in the face of raw material shortage. Still, in every instance, they are superior in quality and finer in texture than any we have had before. It gives us great pride to be able to show such an assortment of real American-made goods.

### Children's Warm Coats

We are now showing a large line of Children's serviceable, warm Coats. These are Coats that are made for the comfort of the little folks. Velours are very popular this season. They make a very warm Coat and are a garment that will stand any amount of good, hard service and still look well. All Coats are heavily lined, and many of them are interlined, and while the price is a little higher than other seasons, you can get a Coat that you can get good service and comfort from. See this line of Children's Coats while the assortment is complete.

### Ladies' Warm Coats

Soon we will be in the midst of good, cold weather. You will want a good, warm, serviceable Coat. Why not make your choice now, while the assortment is at its best? We are showing one of the largest lines of Cloth and Plush Coats we ever displayed at one time. These were bought early, when we could get cloths that we could guarantee all wool. Then we could get a better value earlier than when everyone was working every way to get their Coats delivered. This is surely a good advantage to you. Let us show you the line, and you will be convinced of their real value.

These values are developed in the rich looking Silvertones, Velours, Tricotines, Duvelty, Heavy Kerseys and Luster Velours. Notice the fullness of the garments and the way they are made. The prices are right, the value is there.

### Ladies', Misses' and Children's Underwear

Our line of Munsing Wear is complete in every way, and those who have had this make of garment know how well they wear, and what an exceptional wearing garment they are. These we have in all the different weights, both in the cotton fleeced and the plain wool, at prices that are right, and extra values for the money.

VISIT OUR MILLINERY DEPARTMENT for the correct thing for Fall and Winter Hats. Here you will find a good assortment of the season's best values, in styles and shapes that will please.
